OFFICIAL PAPER OF THE CITY OF AKRON.

TO TELEPHONE THE DEMOCRAT CALL  
No. 180.

THURSDAY, JUNE 7, 1900.

Cuyahoga Falls' Council has grown weary of the extent to which the "speak easy" business has been carried on at the Falls, so without making very much noise about the matter an ordinance was passed to its first reading last night licensing open saloons. The final readings will be given the ordinance today and tomorrow.

Oregon went Republican several days ago and every Administration organ of any standing is assuming that the result of the election was an unqualified endorsement of imperialism. Perhaps this explains why the fighting statesmen at Washington think they are licensed, as a part of the imperial program, to pick a quarrel with Russia.

According to the calendar of the House of Representatives, 12,152 bills were introduced in Congress at the present session, of which 1,215 were passed. Of this number 283 were public acts and 932 were private, most of them being pension bills. It is estimated that aside from the laws of Congress more than 5,000 laws are passed by the Legislature of the various States each year. Self-government is a great blessing.

## ON DANGEROUS GROUND.

Today's dispatches from Washington are enough to take the people's breath away. They declare that the Administration is thinking of standing by Japan in her demand that Russia shall not land more troops in China than is necessary to preserve the peace. England is Japan's friend and ally, which may have something to do with the eagerness of the Administration to commit America to an "entangling alliance" relating to the discomfiture of China.

One of the so-called diplomats at Washington is credited with saying that President McKinley has "60,000 soldiers in the Philippines who would be glad of the opportunity to cease from chasing flying natives in order to take part in real warfare in China." The people of the United States ought to have something to say about what part their country shall have in the Eastern middle. It will doubtless be the opinion of a majority of the people that if Uncle Sam cannot subdue a tribe of what the Administration organs term "uncivilized and flyng natives," he should think twice before seeking a conflict with a power of the magnitude of Russia, especially when the seat of war is to be about twelve thousand miles away from home.

Of course the people will not jump at conclusions until they have had an opportunity to determine what the Administration really intends to do in the matter, but even if these reports from Washington are all talk—as will be assumed when the Administration statesmen find out their unpopularity,—such talk is dangerous and, in view of the imperialistic tendencies displayed of late by the Administration, will find plenty of believers.

## Ashtabula Delegates.

Delegates to the Democratic state convention, chosen by the Ashtabula convention, are: W. S. King, G. S. Anderson, M. E. Rose and Thomas Cherry. The candidates of the Cook faction, which was instrumental in defeating Summit county's candidate for national delegate at the Warren convention last week, did not get 15 per cent. of the votes of the Ashtabula county convention.

## TEN PER CENT

## Increase In Wages Offered to Employees

At A. &amp; C. F. R. T. Company—Will be Acted on Friday Night.

President T. F. Walsh of the A. & C. F. R. T. company, announced today that the car men on the company's lines had been given an increase of 10 per cent in wages.

The men presented a request for an increase some time ago, and the company's offer to increase wages 10 per cent will be discussed by Employees Car Men's union, Friday evening. None of the employees would say anything relating to how much of an increase was requested by them. Several of the employees did, however, remark that no trouble was anticipated.

The day men work 10 hours, and the night men 8 hours. There is no graduating scale connected with the paying of men employed by the company. The motormen and conductors, regardless of the time that they have served in the business, receive 10 cents per hour, the day men receiving \$1.00 per day, and the night men, \$1.25. The 10 per cent increase, amounting to 1.35 cents per hour, it is thought, will be accepted by the men as it will increase the wages of the day men to \$1.70 per day, and that of the night men to \$1.40 45.

## FITTED

For Important Position to Which He Was Appointed.

Theron R. Palmer, late of Akron, O., has recently accepted the superintendency of the Pennsylvania Rubber company of Erie, Pa., entering upon his new duties about May 21, says an Exchange. The prominent position which Mr. Palmer has occupied with the B. F. Goodrich company for five years past, as superintendent of their tire department, has fitted him eminently for his new work. The Pennsylvania company have matured plans for additional buildings that will more than double their present extensive output, which has become necessary from the fact that they have lacked capacity for some time past to handle all the business offered them.

## Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Success out of all this is caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can be cured by Hall's Catarrh Cure. Send for circular, free.

## TO WOMEN WHO DOUBT.

Every Suffering Woman Should Read This Letter and Be Convinced that Lydia E. Pinkham's Vegetable Compound Does Cure Female Weakness.

"I have been troubled with female weakness in its worst form for about ten years. I had leucorrhoea and was so weak that I could not do my housework. I also had falling of the womb and inflammation of the womb and ovaries and at menstrual periods I suffered terribly. At times my back would ache very hard. I could not lift anything or do any heavy work; was not able to stand on my feet. My husband spent hundreds of dollars for doctors but they did me no good. After a time I concluded to try your medicine and I can truly say it does all that you claim for it to do.

Ten bottles of Lydia E. Pinkham's Vegetable Compound and seven packages of Sanative Wash have made a new woman of me. I have had no womb trouble since taking the fifth bottle. I weigh more than I have in years; can do all my own housework, sleep well, have a good appetite and now feel that life is worth living. I owe all to Lydia E. Pinkham's Vegetable Compound. I feel that it has saved my life and would not be without it for anything. I am always glad to recommend your medicine to all my sex, for I know if they follow your directions, they will be cured."—Mrs. ANNIE THOMPSON, South Hot Springs, Ark.

## MR. SAALFIELD

Gives His Reason For Not Prosecuting a Charge.

To the Editor of the Democrat:

In justice to myself, as well as to my son, Arthur, I wish to state that the reason I made no charges against Principal John Smith was that he voluntarily called at my residence, and apologized for his treatment of my boy, and gave me his word that such a thing should not occur again. He also stated that he had destroyed the piece of hose with which he had been in the habit of beating the children.

I made this statement to the committee on discipline of the public schools, but evidently it was carefully excluded from any report given to the papers by that committee. The committee simply stated that I had no complaint to make, and dropped the matter; all of which is entirely erroneous. Had it not been for Mr. Smith's visit to my home, the matter would not have been dropped; on the contrary, I should have prosecuted it severely.

A. J. SAALFIELD.

## AT \$18,563,

Yours respectfully,

Two Funny Boys Succeeded in Burning a Straw Stack.

(Special Correspondence.)

Lake, June 5.—While blowing out stumps on the farm of Jacob Rudy, Mr. Jess Foster found a hole of young snakes, that would have filled a half bushel measure. The next day, he cleaned out a well on the premises of Sam Rudy and found another half bushel in its depths. The water of the well had not been used for some time on account of its peculiar odor. Memorial day will be long remembered by Willie Weratz and Johnny Selby, of Plaine township. The boys wanted a little sport of their own, and as they had a bunch of fire crackers, concluded to set them off. Just at this point, along came their little Peco, a rat terrier, and in a jiffy, they had a dozen fire crackers tied to his tail, and a match applied to them. When the first one went off, Peco went off too, and took refuge under a straw stack. When he came out the stack was afire, and soon burned to the ground. Peco didn't get a licking for firing the stack, but you should have seen the stars and stripes on Willie's and Johnny's legs and backs.

Barbara Clarke of Akron is sojourning at Lake and her health is improving.
